Holston Conference of the M. E. Church.
FOURTH DAY.
The Conference was opened at the usual hour this morning with appropriate religious services, after which many items of interest to the work of the church in the bounds of the Conference were disposed of. Various reports of committees were presented. Most of the committees reported in detail. Many of them would be very interesting to your readers, if space could be given them. But these reports will appear in the "Minutes," in pamphlet form, and those wishing to read them can be supplied at a very small cost, by applying to the preachers.
These Methodist preachers are alive to all to all the interests of the country as well as those pertaining to the immediate interests of this branch of the church. The reports show that the Methodist Episcopal Church in East Tennessee is in a healthy, growing condition. All who will read the reports as made can see that this branch of the church is stronger to-day, in every sense, than ever before in the bounds of the Conference.
The ministry evince a stronger determination to work for God and humanity.
The statistics show an actual membership of 23,549. And of this number 21,458 are white, which showing refutes the idea of a few misinformed who seem to think this Conference has but little strength among the active, growing people of Tennessee.
